

Html first project:

Clothes shop:

In this project we need to build an clothes shop website using HTML and CSS:

The site must include those pages:

Home.html

AboutUs.html

ContactUS.html

Womens.html

Men.html

Shoes.html

MenJeans.html

WomenJens.html

MensShirts.html

WomensShirts.html

WomenSkirts.html

MensJackets.html

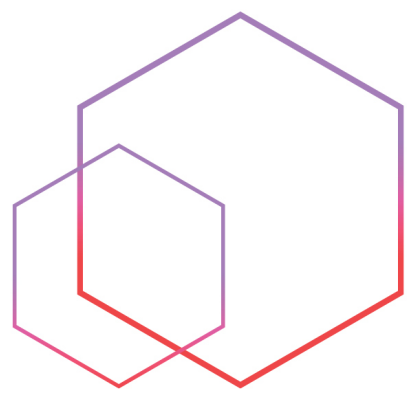

WomenJackets.html

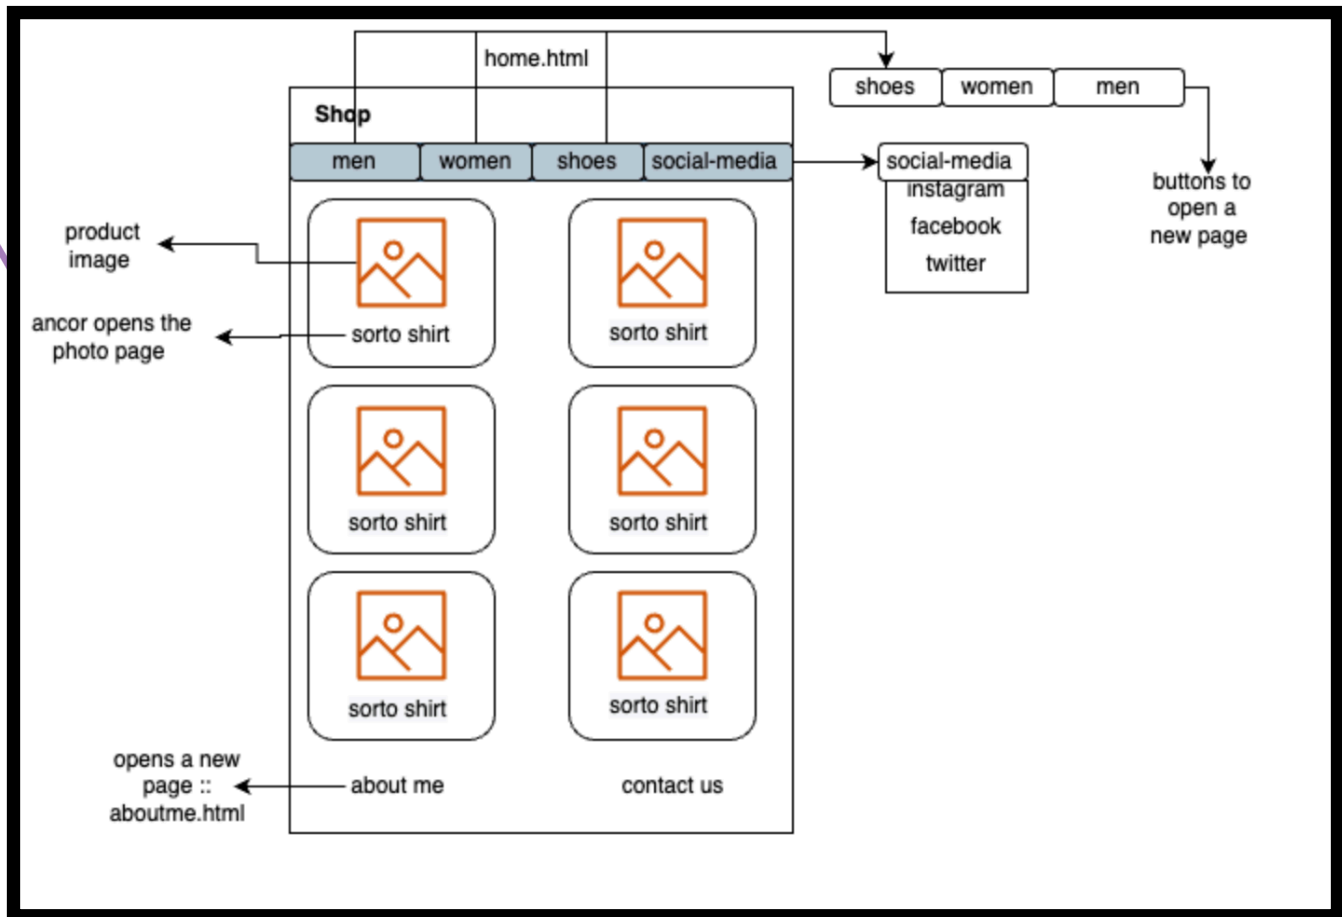

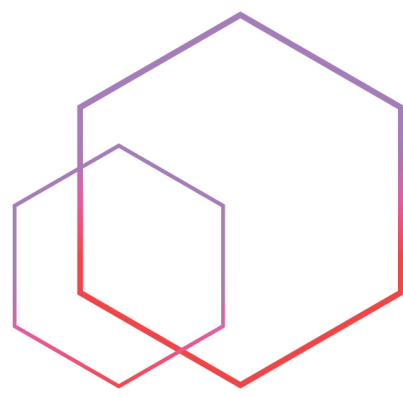

MensShoes.html

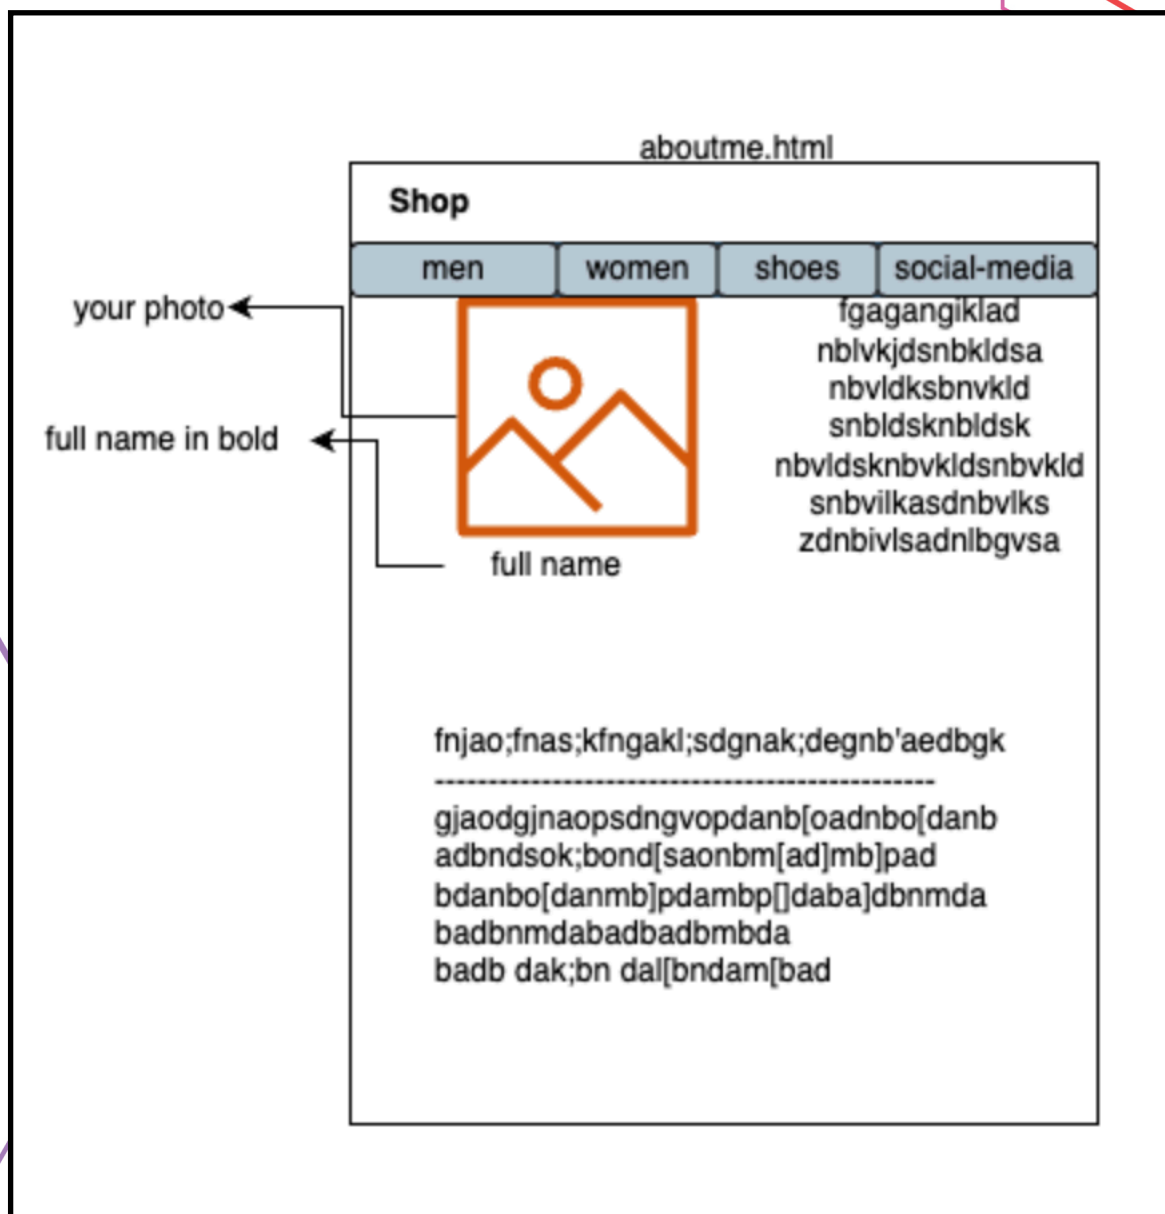

WomenShoes.html

MenT-Shirts.html

Styling by your taste

ContactUs.html

Shop

men

women

shoes
